Any system

Migrate mailboxes between Microsoft Exchange, Office 365, Novell GroupWise, Google Apps/Gmail, VMware Zimbra, IBM Lotus Notes, IMAP or POP systems.

High fidelity

We migrate not just emails but also calendars, contacts, tasks and more depending on the messaging system. We migrate hundreds of properties to provide the highest fidelity.

Anytime

Migrate at any time 24 hours a day, 7 days a week worldwide. Our global migration farm is used by single individuals to multi-nationals.

Australian data centre

Your data is located in our Australian data centres helping you meet regulatory requirements. Other companies keep your data offshore, resulting in slower transfer speeds and more waiting.
