Not for Profit Web Hosting

We'd like to thank you for the good you do!

- Charities
- Personal blogs
- Hobby sites
- Churches
- Community groups
- Fundraisers
- Local sports teams

Do you need website and email hosting for a hobby or community website? Our Not For Profit plan is designed for individuals or non-profit organisations that serve the general public good and need inexpensive web hosting.

We believe that small personal or community websites should be affordable, allowing you to spread the word about your hobby, club or cause while retaining control and ownership of your content.

At just $49 per year, this is our cost price plan that helps us give back to our community. Go on… keep doing the good that you do while sharing your passion for vintage records, your family photos or information about your local soccer club!

Overview

Suitable for:

- Wordpress
- Joomla
- HTML websites

Am I eligible?

The Not For Profit plan is a cost price plan we offer for the benefit of our community, and it's designed to cater to small personal and community based websites. Businesses are not eligible to use the Not For Profit plan. Learn more about eligibility.

Supporting your business 24/7

Help is only a phone call or email away. Our world class support centre is open 24 hours a day, 365 days a year.

Enterprise hosting environment

Our clustered cloud environment offers full redundancy and protects against down time. Even during high traffic loads your website won't slow down.

Fast web delivery

We use multiple Tier 1 carriers to deliver your website. Sharing the load ensures visitors see your content as soon as possible.
