

# SSL Certificates

Secure your website transactions today with a trusted SSL certificate.

Our GeoTrust SSL certificates secure the connection between your website and the visitor's web browser. They are highly recommended for eCommerce sites, intranets or whenever a visitor needs to be guaranteed that the website they are visiting is authentic.

- Improve customer sales and trust
- Different warranty levels for various site requirements
- Extended validation options turn the address bar green
- GeoTrust and VeriSign SSL certificates available
- 99%+ browser support
- Strongest 256-bit encryption
